        Good morning Penelope.

        I read your technical memo on the Stage III tests for the
BcV-mCov vaccine.
        It's unfortunate that these results are not exactly as we
expected.
        We need further testing. The work continues until the
vaccine is safe!

        Thank you and your team for the incredible effort you have
put into this project.
